

Parent Brochure

Welcome from Mrs Parkin

Dear Parents/Carers,

Welcome to our school brochure, this will hopefully give you a clear picture of our school and its aims.

We are a Church School and have close links with the adjacent church St. Thomas a Becket. As part of the Bury School Partnership we share events with other local primary schools and secondary schools to prepare Upper Key Stage 2 for the transition to their next school. Due to the reorganisation in Bury St Edmunds, the school has just gone through some remodeling and building work in order to create extra accommodation to house our current Year 5s and Year 6s.

Our school is a warm, welcoming and stimulating environment in which to work. Our team of skilled and experienced staff work closely together. With class sizes ranging between 17 to 25 children, staff are able to focus on each child's strengths and weaknesses. We aim to work closely with every child and their family to ensure all children will feel as safe and happy at school as they do at home, so that they are able to reach their true potential, whilst in our care.

We are proud and like to celebrate the achievements of all our children and encourage them to take pride in everything they do in our school. As an important part of the community we enjoy being involved in all that goes on within it. We are very proud that recently we were awarded the Bronze Linguamarque Award, in recognition of the school's commitment to embedding modern foreign languages throughout the whole school.

If you require further information or would like to come and see the school, please do not hesitate to contact the school office and we will gladly arrange an appointment. I look forward to meeting and working with you so that together, we can give your child the very best possible start to their school life.

Yours sincerely

Kath Parkin
Headteacher

Our Mission Statement

Ofsted

Our most recent Ofsted Inspection graded us as Outstanding.

We are very proud of this!

A recent interim assessment has shown that our performance has been sustained and that we remain Outstanding!

We aim to provide an education of the highest standards within a happy, caring, Christian environment in which all may grow in knowledge, self-confidence and their respect for others.

We want our school to be a learning community for everyone. Therefore we aim:

1. To provide a secure, caring and welcoming environment, where children can learn to grow and work independently.
2. To enable the children to become confident, enthusiastic and respectful, whilst maintaining an awareness of others.
3. To provide all pupils with a broad, balanced and creative curriculum ensuring progression, continuity and an understanding of individual pupil's needs whilst striving to achieve the highest possible standards.
4. To help the children feel proud of themselves, their school and their learning.
5. To develop in pupils a sense of responsibility for themselves and the choices they make.
6. To enable the children to develop understanding and respect for religious, moral and cultural differences within our community.
7. To maintain a strong, positive partnership between home and school and to forge close links with the church and local community and enlist their support in helping the school fulfill its aims.

What the inspector said:

"This is an Outstandingly effective school..."

"The school's success arises from the continued clear vision and direction given by the new Headteacher to a remarkably caring and committed staff."

"Pupil's personal development, including spiritual, moral, social and cultural development, is outstanding and reflects the school's Christian ethos very well."

"Pupils benefit from Outstanding teaching."

"The good curriculum focuses particularly well on ensuring pupil's basic skills are highly developed."

What the children said:

"Teachers are kind and help you when you are stuck, all you have to do is put your hand up and they are there."

"If ever you don't feel good there is always someone to help you out and cheer you up."

"We like the teachers because they make it the best for us."

What the parents said:

"Our experiences of the school have all been extremely positive. We can't say enough good things about it."

"I feel the teaching staff care deeply and are brilliant. The school is well organized, has fantastic facilities and overall a kind, professional academic staff. We are very pleased with Great Whelnetham."

Meet the Staff

Headteacher:	Mrs. Kath Parkin Designated safeguarding lead, RE/Worship and PSHE
Senior Teacher:	Mrs. Sarah Jenkins Co-ordinator for EYFS, SEND
Senior Teacher:	Mrs. Verity Lockwood Co-ordinator for Literacy, more able pupils, enrichment
Teacher:	Mrs. Claire Masson Co-ordinator for Science, Phonics, History and Geography safeguarding alternate KS1,
Teacher:	Miss. Charlotte Kiddy Co-ordinator for PE, ICT & E-safety, safeguarding alternate KS2
Teacher:	Mrs. Claire Dunn Co-ordinator for Art, Design & Technology,
Teacher:	Miss. Charlotte Holloway Co-ordinator for Maths, Wellbeing and Clubs
Teacher:	Mr. Sam Sharp Coordinator for MFL
Teacher:	Mrs. Charlie Gould
Senior Leader & Office Manager:	Mrs. Angela Kimber
Admin Assistant:	Mrs. Jo Large Coordinator for Friendship Club
Nursery Nurse:	Mrs. Kerry Coe Elklan and Clicker trained
Teaching Assistant KS2:	Ms. Lorraine Robson Numeracy catch up, Clicker trained
Teaching Assistant KS2:	Mrs. Mandy Ellis Elklan and Clicker trained
Teaching Assistant KS2:	Mrs. Gill Ansell Forest Schools, HLTA, Clicker trained
Teaching Assistant KS1:	Mrs. Lynn Barbrooke Numeracy catch up, Clicker trained
Teaching Assistant KS1:	Mrs. Sarah Millichamp, Clicker trained
Teaching Assistant KS1/2:	Mrs. Christina Welham HLTA, Clicker trained,
Teaching Assistant KS2:	Mrs. Mel Pusey Dyslexia, Clicker trained
Midday Supervisors:	Mrs. Jo Large, Miss. Louise Bradley, Mrs. Rhonda Rayner, Ms. Mary Currey, Mrs Chris King
Kitchen Assistants:	Mrs. Chris King, Ms. Katie Ruffel, Ms Stacey Pilgrim, Lorraine Tricker

Meet the Governors

Headteacher:	Mrs. Kath Parkin
Chair of Governors:	Mr. Ben Sear Co-opted Governor Committees: Finance & Personnel, Health, Safety & Premises, Learning & Achievement Responsibilities: Data Protection/GDPR
Governors:	Mrs. Jo Kydd Co-opted Governor Committees: Learning & Achievement Responsibilities: Safeguarding & SEND
	Miss. Charlotte Kiddy Staff Governor Committees: Learning & Achievement, Health, Safety & Premises Responsibilities: Link Governor
	Mr. Paul Kirkwood Parent Governor Committees: Learning & Achievement (Chair) Responsibilities: Key Stage 1 including Early Years, Progress, Attainment, More Able Children, Pupil Perception
	Mr. Rob Ireland Co-opted Governor Committees: Health Safety & Premises (Chair), Finance & Personnel, Responsibilities: Key Stage 1, Progress, Attainment, More Able Children, Pupil Perception
	Revd. Jeremy Parsons Ex-Officio Foundation Governor Committees: Finance & Personnel (Chair), Head's Performance Review, Responsibilities: Pastoral & Social Cohesion

Our School

The school currently has seven classes (the school roll has approximately 151 children) with small numbers in each ranging from 17 –25 children. This enables staff to ensure that children are able to have individual help which is so important during a child's early years in education.

Key Stage 1

Key Stage 1 comprises of the first three classes. These are:

- Foundation Stage, 'Wrens' ages 4-5
- Year 1, 'Larks' ages 5-6
- Year 2, 'Robins' ages 6-7

Key Stage 2

Key Stage 2 comprises of four classes:

- Year 3, 'Kingfishers' ages 7-8
- Year 4, 'Owls' ages 8-9
- Year 5, 'Woodpeckers' ages 9-10
- Year 6, 'Swans' ages 10-11

Cygnets Childcare

The adjoining Cygnets makes provision for children from 2 years 9 months and also provides before and after school care.

Our Surroundings

Great Whelnetham Voluntary Controlled School is a Church of England Primary School for boys and girls currently with an age range of four to eleven years. Children will stay in school until the end of Year Six when they will feed into King Edward VI School or Sybil Andrews Academy in Bury St Edmunds.

The school serves the villages of Great Whelnetham,

Sicklesmere, Stanningfield and Nowton, although many children from outside this catchment area are admitted as well.

The school is located adjacent to St. Thomas a Becket Church, with which it has strong ties.

There has been a school in Great Whelnetham on the same site since 1849, which is when the

original building (now Cygnets Childcare) was built. Two classrooms were added in 1954. A more recent extension added a good sized hall and an office. A fifth classroom was created through remodeling an

activity area and two further classrooms were built in 2015. We have recently built a kitchen for the children to

use which is an exciting addition. We will soon benefit from the addition of a DT shed.

Adjacent to the school buildings, there is a large grass playing field which includes a football pitch, and activity area. There is

also a spacious hard surface playground and a garden area with an enclosed pond. Our Forest School is held in a dedicated, fenced wooded area to the back of the playing field.

School Session Times

Earliest time to arrive: 8:50am

The doors open

School begins: 9:05am

Morning break: 10:15-10:30am
10:30-10:45am

Foundation Stage/Key Stage 1
Key Stage 2

Lunch: 12:00-1:00pm

Collective Worship: 1:10-1:25pm

Afternoon
break: 2:15-2:30pm

Foundation Stage/Key Stage 1 only

School ends: 3:15pm
Foundation Stage/Key Stage 1
Key Stage 2 3:25pm

The school is open five days a week or two daily sessions. The teaching week, excluding collective worship, registration and playtime is:

Key Stage 1 (ages 5-7) 21.25 hours

Key Stage 2 (ages 7-11) 24 hours

Our Aims

Our aim within the Early Years is to provide a quality learning experience both indoors and outdoors for all the children, learning that is well founded in teacher observation, balanced, relevant to the child and related to the real world. The Early Years curriculum is divided into seven areas of learning. Every day your child will have the opportunity to experience a cross-curricular approach to these areas:

- Personal, social and emotional development
- Communication and language
- Physical development
- Literacy
- Mathematics
- Understanding the World
- Expressive arts and design

The children have the opportunity to use laptops, iPads, digital cameras and programmable toys.

The Early Years Foundation Stage (EYFS)

Personal, Social and Emotional Development

We encourage the children to build good relationships with their peers, other children and adults within our school. We promote self-confidence and the ability to understand their feelings and the feelings and needs of others. We promote working as part of a team and understanding good behaviour.

Communication and Language

We encourage the children to speak clearly and to listen to each other. We give them many opportunities to recreate stories and extend ideas through role play and discussion.

Physical Development

The children are given a wide range of experiences to develop their physical abilities both indoors and outdoors. They are encouraged to refine their running, kicking, catching, and throwing skills with a variety of equipment. We encourage our children to understand the need for healthy eating and the effects exercise has on their bodies. The children are encouraged to practise their fine motor skills using small equipment to cut, stick and paint.

Literacy

The children enjoy many opportunities to hear stories, rhymes, songs and poems. They are taught synthetic phonics to link sounds to letters and to build words. They are given the opportunity to choose books from school to share at home and are introduced to individual reading books and activities. They are encouraged to write in many areas, using a variety of materials. They are taught a pre-cursive script.

Mathematics

The children are taught maths in a practical way. They are encouraged to find solutions to mathematical problems using materials. They have correct mathematical language modelled to them and are encouraged to use it. They sort objects, count objects, record numbers, solve simple addition and subtraction and investigate shape, pattern and measure.

Understanding the World

The children are encouraged to find out about the world around them, including their own lives and the lives of their families. They investigate how things work, ask questions about why things happen and investigate their local environment.

Expressive Arts and Design

The children are given a wide range of opportunities to express themselves through dance, drawing, painting, collage and model making. They will work in a group or on their own. They will learn new songs, rhymes, play percussion instruments and recognise and explore how sounds can be made and changed. They are encouraged to use their imagination in role play. We recently had an enrichment day when all pupils worked together. They experienced a range of music, dance, 2D/3D art and fine art activities related to the theme of Dick Whittington.

Creative Curriculum

The school has been teaching to the new curriculum since September 2014.

The children are taught all subjects through a creative curriculum.

The core subjects of English, Maths, Science and ICT are given emphasis to help the children develop a depth of knowledge and understanding and to gain skills in these areas.

The creative curriculum allows the foundation subjects to link and be taught alongside the core subjects within themes. Therefore the children are able to link and connect their thoughts and learning experiences, covering History, Geography, DT, Art, Music, RE, PSHE and PE.

Age Related Expectations

There are objectives or goals setting out what children should know and be able to do at the end of each stage in their schooling - Age Related Expectations. For each subject there are key indicators of what the children should be taught to reach.

School Curriculum

English

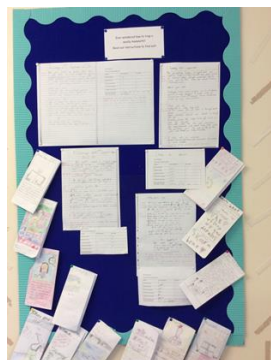

Reading, writing, speaking and listening and grammar are the cornerstones for the whole of the curriculum.

The aim is to teach children to read a wide variety of materials, both fiction and non-fiction. We use a programme of synthetic phonics which supports reading, spelling and writing skills.

We encourage children to read using online reading and research, book fairs and special book weeks. Reading at home is absolutely essential. Spelling tests feature in all classes.

Through the new curriculum children are taught to write in a grammatically correct manner with emphasis on spelling, handwriting and punctuation (SPaG). They are offered a wide variety of opportunities to develop their writing skills including short and extended stories, poetry, plays, letters, factual writing. These skills are embedded across the curriculum.

Speaking and listening skills are developed through the use of role-play, performance of plays and poetry, giving instructions, factual reporting and in general conversation.

Reading is an essential skill which needs to be fully supported through daily reading at home. This could be through a variety of text types such as stories, comics, magazines, online and instructional texts e.g. recipes,

Maths

Maths is taught in accordance with the new curriculum requirements. We aim to provide the children with a wide range of experiences through which they develop numeracy and mathematical thinking. A range of practical activities, written activities, investigative work is incorporated into our daily routine.

The National Curriculum identifies four areas of study:

1. Using and applying maths
2. Number
3. Shape, space and measure
4. Handling data

Calculation methods are taught in line with those agreed by the Bury School Partnership. This provides children with a range of methods to choose from. Formal written methods are often not taught until Upper Key Stage 2.

e-Safety

We teach the importance of being safe online. Parents can also find further links on how to do this on our website.

Science

From the early years our science sets out to enable the children to understand the world in which they live by showing them how to investigate it.

Science teaching is based on the National Curriculum and aims to develop the interest, enjoyment and curiosity of the children. Science is an imaginative subject and finding out by trying out and making careful observations is of the essence. We try to teach in varied and interesting ways both within the classroom and by using our rich outdoor environment.

Children are encouraged to ask probing questions and are taught the skills of systematic enquiry which will help them suggest answers and find solutions to problems.

Computing

Children are taught to use ICT equipment and software confidently and purposefully, to communicate and handle information, input programming, produce recordings and expressive work and to assess the value of ICT in their work.

ICT is an ever-expanding and constantly changing area of our lives and the school considers it essential that children grow up using it as a tool for a variety of learning purposes.

Children, therefore, experience the use of computers and tablets from the start of their school lives and gradually learn a range of applications. All classes have interactive whiteboards, and have access to a supply of laptops, iPads and tablets.

Children are taught how to use technology safely, respectfully and responsibly. They are taught about being safe online and the importance of not sharing their personal details.

Music

During their early years at school, children are taught a range of skills encouraging sensitive listening as well as playing simple musical instruments.

They are progressively taught to understand the fundamental elements of music and hear how these are used in combination.

A Music Specialist teaches this progression throughout the school.

There is a school choir and the children are able to have violin lessons from Foundation Stage upwards and piano, guitar and voice lessons from Year 2. As a school we participate in the many musical opportunities which evolve through the Bury School Partnership, e.g. BBC 10 piece event at the Apex, as well as the local Bury Festival.

Design and Technology

With Design and Technology, children have the opportunity to design and make, investigate, disassemble and evaluate familiar products. They learn to use a range of materials and techniques, components and mechanisms, safely and effectively.

Children also examine existing products in order to assess their design quality.

Whilst DT is treated as a subject in itself, there are times when it is taught alongside other subjects, for example ICT and art.

Language Accreditation

We are proud to have been awarded the Bronze Linguamarque Accreditation which recognises the efforts we go to in order to embed languages across the school and curriculum.

Our children love learning in the stimulating Forest School environment.

Geography

In developing their geography skills, children are asked to show a sense of curiosity about, and responsibility towards, the environment. They are required to raise questions, make observations and collect evidence about the natural and man-made world.

History

Children will experience study units on themes such as 'Victorian Britain', 'Local History' or 'Ancient Egyptians'.

They will develop a range of skills and knowledge to help them study history. These may involve recreating some situations or visiting suitable sites or museums.

Understanding a 'time-line' and interpreting different kinds of historical evidence is also of great value. Sometimes, for instance when we study the locality of Great Whelnetham, connections are made between history and geography and they are taught together.

MFL – French

French is taught across Key Stage 2 but also introduced discretely in Key Stage 1 and Early Years Foundation Stage. The children learn a range of skills such as reading, writing, listening and speaking.

We use the Inspire plans to support the curriculum and games, songs and videos are used too. In addition, the children learn about what it would be like to live in France and its culture.

We try to practise our language skills throughout the day, for example by doing the register in French and many other languages. We also learn a different French song each half-term to perform as a whole school.

Forest Schools

Forest School provides an excellent opportunity to learning. It allows children to become actively involved and to learn in a way that encourages emotional, social, physical and behavioural development. It works closely with the National Curriculum adding another valuable dimension.

Forest school is a long-term child-led educational process which is set in a secure area of the school field that effectively becomes an outdoor classroom. It allows children to explore, investigate, discover and to develop a wide range of skills through the natural environment.

During the year children are taught about the world around them and the importance of sustainability. They learn to identify local flora and fauna. How to be safe around a camp fire, to use tools correctly. But above all they have FUN!

'Life in all its fullness' with four basic elements: dignity, community, hope and wisdom which interplay with each other resulting in a fullness of life.

Children are taught the importance of exercise and keeping healthy.

Art

The children have many opportunities to express themselves and communicate ideas and feelings through art and craft activities. They will use a range of media including painting, drawing, printing 3D work and textiles, clay and mixed media work. They will become familiar with the work of artists past and present and work from other cultures.

RE

Like all county and controlled primary schools, RE is governed by an agreed Religious Education syllabus. Broadly based, one of its aims is the promotion of the principles of a "democratic, multi-cultural society".

Children learn to understand the nature of Christianity and of other principal religious traditions. The school's approach to RE is one which draws upon and contributes towards, wider personal, social and spiritual development.

British Values – Multicultural Approach

British Values are promoted at school to ensure young people leave school prepared for life in modern Britain.

Democracy is central to how we operate. Our School Council is a typical example. Pupils are always listened to by adults and taught to listen carefully to others, respecting the right of every individual to have their opinions and voices heard whatever differences we may have. We are proud to celebrate different backgrounds and beliefs and mutual respect is a big part of our aims and values.

PE - Physical Education

Physical Education covers gymnastics, games, dance, swimming and athletic and outdoor activities. In all activities, we aim to develop teamwork and co-operation, to know the importance of practice, and to learn to be sympathetic to the abilities of others.

The school hall, the playing field and the playground are all used for P.E. and games sessions. Lower KS2 children go to Bury Swimming pool once a week during the Spring Term. We aim to have all children confident and happy with many swimming at least 25m.

We have achieved Activemark status. This is because all of our children take part in at least two hours of high quality PE and school sport per week. It also reflects the commitment the school has to offering new and enhanced sporting activities to the children. An external sports company provides games

coaching for each class on Monday and Wednesday afternoons and Friday mornings.

We also offer a number of after school clubs. As a member of the Bury Schools Partnership we are able to participate in competitive sports including hockey, rugby, tennis and cross country

and athletics. Where possible we utilise sporting opportunities provided by King Edwards VI School.

Personal, Social and Health Education

PSHE helps to give our children the knowledge, skills and understanding they need to live confident, healthy, independent lives and to become informed, active, responsible citizens. As such, children are encouraged to take part in a wide range of activities and experiences across and beyond the curriculum, contributing fully to the life of our school and community.

During KS1, children learn about themselves as developing individuals and as members of their communities, building on their own experience and on the early learning goals for personal, social and emotional development. They learn the basic skills for keeping themselves healthy, through sensible eating and exercise. They learn how to keep safe

and to behave in a sensible manner. They begin to learn about their own and other people's feelings and become aware of the views, needs and rights of other children and adults.

During KS2, children learn about themselves as growing and changing individuals with their own experiences and ideas, and as members of their community. Children learn about the wider world and the interdependence of communities within it. They develop their sense of moral justice and responsibility and begin to understand that their own choices and behaviour affect local, national or global issues. They learn how to take part more fully in school and community activities.

Key Stage 1 (Years 1 &2) Long-term Plan

Cycle 1

Term	Autumn	Spring	Summer
Topic	Who am I?	The potting Shed (Take one picture)	Posting Places
Main Focus	Significant people and places in own locality (History)	Growing Plants/Seasonal Changes (Science) (Fantasy stories/materials)	Finding places around the world on maps and globes (Geography)
Science	Humans and animals How we grow	Plants	Living things and habitats
Art	Mark making/Painting	Printing/3D-Clay	Textiles/Collage
PE	Gymnastics	Dance	Orienteering/Athletics
RE	Belonging to Christianity and Judaism	Prayer and worship Christianity and Judaism	Stories and books Christianity and Judaism

Cycle 2

Term	Autumn	Spring	Summer
Topic	What do I need to be me?	Town mouse/country mouse	2 Queens/Blown Away
Main Focus	How we grow and change (Science)	Human and physical features (Geography)	Victorian life/Flight (History)
Science	Humans and animals Life cycles	Habitats	Weather The rain cycle
Art	Mark making/Painting	Printing/3D-Clay	Textiles/Collage

We share your interest in your child and are always prepared to listen to any concerns whether large or small.

We have a school to parents texting service.

Homework activities are designed to support the work we do in school and are not meant to place undue pressure on children.

The school encourages parents to take part in everyday school life – your support and involvement enhance the learning process

School, Parents and Children Working Together

Partnerships with Parents

We firmly believe that the education of the child is best developed from a strong partnership between home and school and child. As a school we make every effort to build and maintain good relationships with parents, and to ensure we communicate effectively with them.

Parents are always welcome in school, and staff like opportunities to share thoughts and feelings about the way their children are developing. We believe that parents should feel that school is a welcoming place and that the teachers are approachable.

Keeping in Touch

Newsletters are either emailed to parents or sent home regularly to keep parents informed about all aspects of school, and a large parents' noticeboard is situated in the front entrance area.

We can be contacted before or after school, or during the day for something urgent.

Open Days and Evenings

Two formal meetings are held each year, in the autumn and summer terms, when parents can discuss their child's progress and future targets with the teacher concerned. Parents and teachers find these meetings very helpful. Appointment times are very flexible to accommodate the requirements of most parents. All children receive a written report during each school year.

Parents of children with particular learning needs will be offered opportunities to discuss the child's 'Record of Support'.

Homework

We encourage all children to read books at home and ask parents to help them with this, and to write comments in the home/school reading log.

At times they will bring home some maths to do with parents. This tends to be a practical task, perhaps a game or some weighing or work with money. As children mature we will ask them to practice number bonds or tables at home, and parents can be a great help with these.

After discussion with parents it was decided that children should be given a small number of spellings to learn each week at home and school. Children begin these as soon as they are ready - generally at the beginning of Year 1. Weekly homework is set in Key Stage 2.

Helping in School

Many parents help in school in a variety of ways and we are extremely grateful to them for this. If you feel that you can help on a regular or occasional basis please speak to one of the teachers who will be only too pleased to suggest what you could do. Not only will this be a great help to us, it will give you a greater insight into what goes on at school!

Parents are involved as classroom assistants, midday supervisors and governors and as volunteers to assist with school visits, swimming, reading, after school activities and as fundraisers through the PTFA.

Circle Time

'Circle Time', is used as a forum for open discussion of right or wrong and often helps resolve disputes or real or perceived injustices. We commit curriculum time to this process.

Sports Leaders encourage and support all children to play together positively. They help the Midday Supervisors organise activities and support games.

Pride and Community

When children wear a uniform it helps to foster a sense of pride in belonging to their school.

Sweatshirts, summer hats, reading book bags, swimming and P.E. bags are available from school. Please ask in the office for details.

PTFA

The school is fortunate to have a hardworking PTFA and we value its contribution highly. Fund-raising events are held throughout the year and the money raised provides the children with a variety of equipment, funds visiting theatre groups and also helps with school educational visits. The Association provides an important link between teacher and parents enabling them to mix socially, as well as helping to meet children's educational needs. All staff and parents are automatically members. The Annual General Meeting is held in Late September/October, and they are always keen to have some new committee members each year.

Code of Behaviour

Staff use an assertive approach to managing behaviour based upon a system of rewards and consequences which have been discussed and agreed with the children at the beginning of each year. The emphasis within this is upon rewarding positive behaviour (noticing them doing it right), rather than catching them doing it wrong.

When children do not respond to this approach and persist with negative behaviour, they will be reminded of the consequences and invited to make a choice about their behaviour in the light of these consequences. Such instances will include the need to discuss behaviour with the teacher (or head teacher), the loss of play or personal time, or the discussion of the behaviour with the parents.

In the unusual circumstances of extreme behaviour occurring, it will be made clear that it is entirely unacceptable, parents will be contacted and encouraged to work in partnership to address the situation.

If the behaviour persists, then an Individual Behaviour Plan will be drawn up and shared with parents. This will make clear the targets for improvement, the strategies to be employed and the roles that various adults will play.

The behaviour policy is available from the school office and on the school website.

Visitor Etiquette

There is a no smoking policy in all areas of the school which parents and visitors are asked to observe and we politely request that mobile phones are switched off or 'on silent' to avoid any distractions.

Please note that no dogs are allowed on the premises,

School Clothing

We have a simple inexpensive uniform and expect all children to wear it. School is a working environment and it is important that children are dressed in an appropriate and practical way.

The school colours are royal blue, white and grey. In the winter children wear grey trousers, skirts or pinafores, white polo shirts or blouses, and royal blue school sweatshirts. In the summer girls wear blue gingham dresses and boys wear grey shorts and white polo shirts.

PE kit should consist of a white T-shirt, black or navy shorts and trainers in a bag. A spare pair of trainers is optional for outdoor activities. Swimming kit (including hats for girls) will also be required for Year 3.

All children need an overall for art and craft activities. An adult's old T-shirt with a tab for hanging up is perfectly suitable. All clothing must be named, preferably with sewn-in labels.

Worship is an important time of the day when the whole school comes together.

We ask that trainers are NOT worn for school, although children are allowed to wear them for playing games at playtime if they wish, however they must ensure they change back into their school shoes afterwards.

We also ask that children have a pair of named Wellington boots that can be left at school. These may be used for gardening and also during playtimes when it has been wet.

Jewellery and hoop-type earrings for pierced ears are not allowed. Small stud-type earrings are permitted, but the children must be able to remove them themselves before PE and swimming or bring tape to cover their studs themselves.

Helping Our Children Be the Best They Can Be

Collective Worship

As a Church of England Voluntary Controlled School, collective worship is of a broadly Christian character and follows a sequence of themes. Usually worship takes place in school, but sometimes we take the children to the church or other visitors from the community conduct collective worship. Worship includes a time of prayer or reflection and constitute an “Act of Worship”.

Parents have the right to withdraw children from RE or collective worship. It is helpful if such requests are made to the Headteacher in writing.

Special Educational Needs

The school adopts a positive approach to all individual learning needs, and this is particularly the case with children who may require additional support for their learning. At some point during your child’s time at school, he/she may show signs of needing extra support in his/her work or behaviour. We will share our concerns with you and hope you will do likewise as early as possible so that we can work together to assess and meet the individual needs of each pupil. This process is assisted by the Advisory Teacher for Learning Support and uses the ‘record of support’ to assist planning and the review of progress.

The school’s Special Educational Needs Policy explains the procedures for monitoring children’s progress, the way the school implements the Code of Practice and the current level of provision for Special Educational Needs. This information is available for parents at school and on our website.

More Able Children

Many children show a particular aptitude for a certain area of the curriculum and we try to ensure that individual programmes of work enable all children to achieve excellence in sometimes more than one area. We keep a register listing these pupils and any discussions that have been had between parents and the school. We then plan programmes of work which will enable them to achieve excellence through clubs and activities.

Friendship Club

We are fortunate to offer friendship for four lunchtimes a week. This club encourages children to play co-operatively with others of all ages. It is a safe place for some children who are feeling in need of support at lunchtimes.

School Council

The purpose of the School Council is to provide a forum for the children to raise items of concern or interest, and take part in agreeing any resolutions or activities. Children elect members of the school council each year and these representatives of each class meet each half term.

Whenever children are taken out of school, parents are notified in advance as parental permission is necessary.

Emergency Home Contact System

A form will be sent home at the beginning of each school year on which emergency contact numbers must be given and returned to school. We ask that we are kept informed of any changes to these details. We also issue Home-School Agreements to help establish expectations of the school, parents and children alike.

School Visits

Recent trips have included Lackford Lakes, the Scott Polar Research Institute Museum in Cambridge, Banham Zoo, Walberswick, The Suffolk School's Farm Fair and Bury St Edmunds Cathedral.

Parents may be invited to make a voluntary contribution towards the cost of some activities such as visits. Children whose parents do not contribute will not be excluded from the visit. However, if a proportion of parents do not contribute then the activity may not take place. We are always keen to recruit parent helpers for any out of school trips.

Year 4/5 children recently did a 3-day 2-night, residential trip to Thorpe Woodlands. This developed their independence and team working skills, but most of all they had great fun!

Extra Curricular Activities

Throughout the year various clubs and activities are organised by the staff. Some of these take place at lunchtimes whilst others are after school. Sometimes specialist teachers or coaches visit the school to lead some of the activities. The activities provided recently are: Multisports, gymnastics, dance and Chinese.

Health and Welfare

Health and Safety

Health and Safety checks are carried out regularly on school and playground equipment. Fire drills are held routinely so that children and staff become familiar with the procedure.

There is a security lock on the entrance door and to ensure children's safety, all visitors are required to report to the school office. Badges are provided for all visiting adults on site.

Medical Information

Medical screening tests are carried out by the school nurse for hearing, sight, height and weight, during the Foundation Stage. Parents will be informed, and are welcome to attend. The school follows the Suffolk County Asthma policy.

The school may advise that if children are unwell, they should not attend school until they are completely well.

When children are required to take prescribed medicine during school hours it should be marked with the child's name and clearly labeled with precise details of timing and dosage accompanied by a permission slip (available from the school office). The medicine should be handed over personally to the class teacher. We do, however, reserve the right not to agree to administer medicine if there is any doubt.

Accidents

Minor cuts and bruises will be dealt with at school by a first aider. Parents will be informed of any head injury and contacted via the emergency home contact system if deemed necessary.

In all cases of emergency, the Headteacher will endeavor to get in touch with the parents concerned, but if this is not possible she will act on the advice of the Medical Officer consulted. Several members of staff have recently received First Aid training from React First trainers.

Child Protection

Our school takes the safeguarding and welfare of its pupils very seriously.

The school works in partnership with parents to support children in every way possible. If, therefore, concerns are raised within the school or a child or parent reports a situation involving

Safeguarding Leads

Mrs. Kath Parkin
Headteacher

Mrs Claire Masson (KS1)
Miss Charlotte Kiddy (KS2)

The school's safeguarding policy is available on request.

Milk is available to order from Coolmilk.com.

possible abuse, we would not be able to guarantee confidentiality. It would have to be referred to Customer First in line with Suffolk police.

Absence

By law we need to know the reason for all absences. Please help us by telephoning on each day of your child's absence.

If your child is unable to attend school, we ask parents to ring the office before 8:50am on the first and each day of absence.

To ensure your child's safety, a member of staff will ring home if no call has been made, by 9:15am.

Absences may be authorised for sickness or any unavoidable cause, religious observance, or where the L.A. has failed to provide transport. Absences will not be authorised for other reasons – please contact the Headteacher, but the decision to permit authorised absence is not made

lightly. In line with the other Bury Partnership Schools, the principles for absence are as follows:

If parents are unable to take a holiday at any other time (e.g. agricultural workers, or where a parent has just returned from a long period of absence from the family e.g. the forces).

Absence will not be granted simply because holidays are cheaper or because it is more convenient.

Children attending school will be expected to take part in P.E.,

games and swimming unless this is against the advice of a doctor.

At Playtime

We belong to the national fruit and vegetable scheme which ensures that all KS1 children have a free piece of fruit or vegetable each day. Additionally most teachers provide a carbohydrate snack for a small contribution each half term. We encourage children to bring their own water bottles to keep hydrated.

School Meals

Children can either have a school lunch or bring their own packed lunch. School lunches are nourishing and well-balanced and are of a type which appeals to children. Water is provided for

all children. Your child may bring a drink (no fizzy or energy drinks please) to have with their meal if you prefer this. Parents receiving Income Support or Income Based Jobseeker's Allowance are entitled to free school meals. To apply please follow the link on our website. Complimentary school milk, a club and an item of uniform may also be available to the parents of children on this type of free school meal and we welcome any enquiries for information or a confidential chat.

All pupils in Foundation Stage, Year 1 and Year 2 are currently

entitled to free school meals.

We Need to Let You Know

Severe Weather

Sometimes it happens that bad weather overnight will prevent the school opening. On such occasions schools have an arrangement with Radio Suffolk (F.M. 104.6) and Heart FM (F.M. 96.4) to broadcast, early in the morning, information about school closures.

Complaints Procedure

With a strong partnership between parents and staff we hope that any difficulties will quickly be resolved. If there is a problem our Governors have a set procedure to deal with this. In the first instance particular problems should be referred to the class teacher and then to the Headteacher, who will try to sort it out informally. If, however, the issue cannot be resolved in this way, it may be referred first to a panel of Governors of the school, and, as a last resort, to the Local Authority for formal consideration. Further details of the authority's procedures may be obtained from the Headteacher or Area Education Manager or on our website.

Access to Documents

Current legislation requires certain documents to be available for public access — most are therefore available on the website or at the school office. If you wish to study these, please ask at the school office. These documents include policies, curriculum policies and schemes of work as well as copies of minutes from Governor Meetings.

...And Finally

We are proud of our school and ensure it is a place where everyone is valued and behaves with respect and consideration towards others.

If there are any matters which you would like to discuss, please do not hesitate to contact us. We value the help and support that parents provide and welcome your participation in school activities. A Life in Your Hands by Dorothy Law Holte

If a child lives with criticism, he learns to condemn;

If a child lives with hostility, he learns to fight;

If a child lives with ridicule, he learns to be shy;

If a child lives with shame, he learns to feel guilty;

If a child lives with tolerance, he learns to be patient;

If a child lives with encouragement, he learns confidence;

If a child lives with praise, he learns to appreciate;

If a child lives with fairness, he learns justice;

If a child lives with security, he learns to have faith;

If a child lives with approval, he learns to like himself;

**If a child lives with acceptance and friendship,
he learns to find love in the world.**
